IIMS Marine Surveyor Search app turns 5

Back in 2019 the International Institute of Marine Surveying (IIMS) saw the need for a modern solution in searching for a marine surveyor.

Five years later and finding a qualified and experienced marine surveyor is still as easy as ever with the Marine Surveyor Search app, the only one of its kind in the world.

Whether you need a survey for a heritage, wooden boat or an LNG carrier, the app gives you access to 950+ accredited surveyors based in over 100 countries from around the world.

Finding a professional surveyor is simple as you can filter by name, specialisation or location, including the nearest port. Once you've found your surveyor, you can contact them in-app, either by phone or email. After the job is done you can rate them or mark them as a favourite. Better still, it's free to use.

The Marine Surveyor Search app isn't just for boat and ship owners, it's for anyone who needs a marine surveyor, including insurers, brokers, fleet operators and P&I clubs. And it doesn't matter whether you're looking for a surveyor for an occasional survey or on an ongoing basis.

Talking about the app, CEO, Mike Schwarz, said, "Over the five years since we developed and launched the marine surveyor search app, we have continued to refine it making good use of changing technology as it has emerged. The app, the only one of its kind for searching marine surveyors, has been downloaded thousands of times and is the modern way to search and select for a specialist. The capability to send an email and/or call the surveyor directly via the app is a key feature that is well used."

Download the app today. Get it on Google Play Store or download on the App Store. Just search for 'Marine Surveyor Search'.

Ends.

Note to editors:

About IIMS

Formed in 1991, the International Institute of Marine Surveying is a not-for-profit organisation and the leading worldwide professional body for marine surveyors with a membership of one thousand surveyors in over one hundred countries.
